

# OROVILLE HIGH SCHOOL

**CDS Code: 04-61515-0435602**

**Oroville Union High School District**

**Plan Period: 08-17-2016 through 06-08-2017**

**Date of this revision: June 6, 2016**

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students to the level of performance goals established under the California Academic Performance Index. California Education Code sections 41507, 41572, and 64001, and the federal No Child Left Behind Act (NCLB) require each school to consolidate all school plans for programs funded through the School and Library Improvement Block Grant, the Pupil Retention Block Grant, the Consolidated Application, and NCLB Program Improvement into the Single Plan for Student Achievement.

*Our mission at Oroville High School is to provide a safe, engaging environment that promotes high academic achievement and personal and social responsibility.*

*Oroville High School's guiding vision is to assure that all students meet the academic, social, physical and career challenges of the 21st century.*

*We offer quality programs to help our students succeed. Courses, curriculum, and school-wide goals at Oroville High School are reviewed and aligned regularly with local, state and national standards. Our students learn how to be critical thinkers, life-long learners, effective communicators, and community contributors.*

## **ABOUT THIS SCHOOL**

Oroville is the county seat for Butte County and sets along a particularly scenic stretch of the Feather River at the base of what is the second tallest earth-filled dam in the world. The lake that the dam created serves as the primary source for the California Water Project, the aqueduct that supplies Central and Southern California with much of its water. Oroville High School (OHS) is located in a residential area near downtown Oroville. The main campus encompasses an entire block with several satellite classrooms and athletic playing fields located on an adjacent block. The roughly 1,000 students who attend Oroville High come from an area of approximately 663 square miles and from five different elementary districts. Oroville city limits has a population of roughly 16,250 with 58,000 in the greater Oroville area. We have a rich ethnic diversity within the school and the community, due in large part to the number of Hmong immigrants who have settled in the town. The state agencies associated with the dam and the numerous county agencies and offices associated with the county seat account for much of the income in the area, but other governmental sources (including education and welfare), along with tourism, medical health services, transportation, retail trade, service industries, light manufacturing, agriculture, and lumber account for most of the rest. The median household income in Oroville is \$41,181.

Oroville High School has existed as an institution for over 120 years, though the site we currently occupy is (only) around 100 years old. The facility itself reflects that age; however, we recently completed an \$8.5 million renovation and modernization project initiated through the passage of a local bond measure. Recently completed construction projects include the building of a new library, a new science wing, and a new industrial arts building. Other modernization projects include the conversion of the old library into a theater/performing arts center, conversion of the old wood shop building into new art and ceramics classrooms, and improvements and upgrades to the gymnasium and locker rooms. We also have new softball and soccer fields on campus and the most modern and sophisticated football/soccer stadium and track in the north section due to a \$12 Million bond measure. The facility has been completely reconstructed with a state-of-the-art playing surface, an all-weather track, and higher-capacity bleachers that seat over 5,000 spectators. New restrooms, snack bar and parking facilities were also constructed. The entire facility complies with the Americans with Disability Act (ADA).

For more than 20 years Oroville High School has seen-consistent growth in student achievement. During that time we have twice been recognized as a California Distinguished School and twice during that time we have gone into Program Improvement. We are now in year 5 of Program Improvement and are frozen there during the state's transition to Smarter Balanced Assessment program, this in spite of the fact that we have grown 138 points in our API over the last ten years.

In the last four years Oroville High School has adopted a new philosophy regarding our approach to teaching. We have adopted the PLC\* principles and now meet regularly to collaborate on shared lessons and assessments. Since adopting the PLC principles we have seen more consistent growth in our APY/API.

\*(Professional Learning Communities is a philosophy of collaboration among staff to improve teaching and learning. Teachers meet to examine data and discuss instructional strategies that work most effectively to improve student learning. For more information on the PLCs, visit <http://www.allthingsplc.info/about/aboutPLC.php> for additional information.)

## AREAS OF ANALYSIS

### STUDENT PERFORMANCE

#### Conclusions from Student Performance Data Analysis

Because standardized testing has been suspended, our analysis is based on data available. Since 2006 our school has seen an overall school-wide growth of 50 points, and all of our sub-groups grew as well with our Asian subgroup topping out at 807.

In 2008-2009, our school's API jumped 244 points overall. This was great news except for one factor: our Asian sub-group only grew 1 point out of the 5 needed to meet its growth target. All other subgroups met their target. Our school remained in "Safe Harbor" for the 2008-2009 school year and was designated the school of choice under NCLB for the Oroville Union High School District.

In the 2009-2010 school year Oroville High School's API dropped 20 points. During that same year, our Asian sub-group increased by 4 points, but failed to meet the growth target by one point. Our other three significant sub-groups, EL, socio-economically disadvantaged, and white, declined significantly, and did not meet their growth targets.

In 2010-2011, OHS saw a 10 point growth in our API, and all our significant sub-groups grew as well, with the exception of the Asian sub-group, which declined by 4. Also, although the White sub-group grew, it did not meet its targeted growth as well.

In 2011-2012, OHS saw significant growth in each sub-group as well as school wide. Overall our API grew by 28 and all subgroup met their target. The Asian subgroup grew by 37, the English Learners 26 and the white subgroup by 5.

In 2012-13 we again met our overall API with a gain of 10 but our English Learners only showed a 1 point growth. All other subgroups met their targets.

From 2013 to 2016 there has been no standardized test data available.

In 2016-2017 SBAC Data begin to be delivered by the State.

In 2016-2017 Benchmark assessments throughout core subjects; Math, ELA, Science and Social Science.

Based on the data as explained above and contained in the charts on pages seven through eleven, Oroville High School still has areas of concern. Demonstrating consistency in our test scores as we shift to the common core will be a focus for OHS. The goals of this plan have the action strategies and action steps we intend to utilize to raise student achievement.

#### Conclusions from Parent, Teacher, and Student Input

The community of Oroville High School has engaged in discussions in several forums: Site Council, English Language Advisory Council (ELAC), Student Leadership, School Advisory Committee (SAC), Department Chair meetings, faculty meetings, and weekly staff collaboration meetings. The conclusion from all of these meetings is that our school needs to focus on the learning outcomes from our teaching that will help students to grow academically and to perform at higher levels on the new SBAC tests. Our school has taken steps to unify our efforts under the Single School Plan for Student Achievement by identifying essential standards and learning targets that can be measured and attained in our efforts to improve student success.

## **EDUCATIONAL PRACTICES**

### **Alignment of curriculum, instruction, and materials to content and performance standards**

The district has fully adopted the California English Language Arts, Mathematics, Science, CTE and Social Studies Standards. The Common Core standards-aligned curriculum is developed through a district-wide process in which departments review and update curriculum. Teachers working within their respective disciplines have had, and continue to have, collaboration time to align curriculum in all content areas. Teachers' lesson plans are prepared daily and contain learning content, based on learning targets, set by state standards. The standards for learning are benchmarks for each subject in core courses: language arts, math, science, and social studies. Teachers utilize locally developed district quarterly assessment and classroom formative/summative assessments to ensure that all standards are being addressed and learned. When SBAC data becomes available it will be used as well.

### **Availability of standards-based instructional materials appropriate to all student groups**

The district, in cooperation with each site, has adopted standards-based core content instructional materials in all grades. Over the next two years the English Language Arts, Mathematics, Science, and Social Studies departments will be updating our textbooks to align with the Common Core.

### **Alignment of staff development to support standards-based education**

While OHS wishes to limit the use of substitutes in classroom for maximized student learning, we recognize the necessity of having a well-trained staff. For the last four years, through the use of categorical funding and with the approval of the School Site Council, each discipline embarks on four collaboration days per year with the goal of identifying essential standards and learning targets then writing and evaluating common formative/summative assessments.

Since 2012 a new bell schedule has allowed teachers to meet weekly to collaborate. Since that time our goal has been to use that time to collaboratively develop lessons and common assessments that are then evaluated by analyzing results of the assessments in order to identify students for intervention. The school, its staff, and the site and district leadership have adopted the Professional Learning Community (PLC) philosophy, where the foundations and structure of teaching best practices are embedded in improving learning. More than 85% of our staff has attended PLC conferences.

Our teachers assigned to English language development classes (ELD) spent several years working with a consultant to redevelop our ELD program at Oroville High School. For the 2012-2013 and 2014-2015 school years the district created an ELD coaching position to implement these strategies. The immersion program for our ELD students focuses on intense instruction in English language acquisition.

All teachers have the opportunity to attend workshops and conferences related to Common Core and assessments to improve instructional strategies. In addition, all core departments had several days of common core training provided by Total Schools Solution.

Starting in 2013 our PLC leadership group began working closely with Dennis King from Solution Tree to identify learning targets and develop assessments accordingly. Those skills were then shared with departments during weekly collaboration time. The training will continue into the 2016-2017 school year.

Our Career Technical Education teachers (CTE) attend conferences and participate in CTE on-line to learn how to better integrate core standards within their courses.

**Services provided by the regular program to enable under-performing students to meet standards**

All staff members have high expectations that students will be successful at all times. Student willful failures are unacceptable at OHS. Several programs are provided to help students meet standards: a daily consultation period provides the opportunity for underperforming students to voluntarily seek help, or to be directed by teachers to work on standards. A Mandatory Consultation time was established for students who needed extra help but will not attend voluntarily. Students who do not attend mandatory consultation are assigned to Academic Detention and or Homework Hall until they demonstrate they have met the performance criteria needed to exit. AERIES Analytics allows teachers and the Intervention Coordinator to monitor student's success.

OHS has volunteer staff and student mentors who work with eighth grade nongrads throughout the year. In addition, students can get credit serving as tutors in core classes.

**Services provided by categorical funds to enable under-performing students to meet standards**

Specific classes are included in the master schedule to address the needs of our under-performing or ELD students. ELD students have specific courses in English Language Development accompanied by a support class to enhance language skills. Students with specific needs in reading are placed in Power Reading or English Intervention classes, and students with extra needs in math are placed into Math I Readiness. These reading and math classes were added to improve skills across the curriculum. The targets within these programs are to provide English acquisition and knowledge, reading and math skills. Classroom and quarterly assessments and Measure of Academic Progress (MAP) are some of the benchmarks staff use to determine the effectiveness of these programs.

A new position was funded to provide coordination of intervention services for underperforming students.

A further use of categorical funds is to improve teaching and learning for all students. The school district is training all certificated staff to work collaboratively for student success using the PLC model. OHS uses data in each department, as well as at grade level and interdepartmentally, to focus on student achievement and success. To that end, each department has been given four full days of collaboration time. Subs cover teachers' classes so that departments can collaborate, and grade-level teachers can plan and develop curriculum and formative assessments to further student learning.

**Use of the state and local assessments to modify instruction and improve student achievement**

With the shift to Common Core there will be a delay before we are able to do state-standardized data analysis. MAP data is used to place students in specific remediation classes that would help those master standards. For the 2014/15 school year we began assessing incoming 8<sup>th</sup> graders in both math and English to determine placement.

Since 2013, all teachers in core classes collaborate to develop and implement district benchmarks and performance tasks. Teachers also meet to address data within their departments. Ideally, these collaborations occur after each formative and quarterly assessment to identify where interventions are needed. Quarterly Assessments are used as summative assessments, and though these are summative, the data is used for instructional improvement for subsequent years.

**Family, school, district, and community resources available to assist low-performing students**

The current bell schedule provides a consultation period four days a week. Two are dedicated for direct intervention for students, and one is for IEPs, Student Study Teams, or 504 meetings and the fourth is for department meetings. Tutoring is offered during the consultation period to all students in all subjects. In addition, a weekly one hour collaboration time was built in for teachers.

The school also offers the services of a District paid social worker. This position meets with students and families accesses any social, emotional, medical, economic or educational need and then tries to connect these individuals to outside resources in the Oroville and Butte County area.

Academic Detention and Homework Hall, SARRT and COST together, offer additional support for low performing students.

In addition, an intervention coordinator is given two hours per day to monitor and assist students in the above programs.

**School, district, and community barriers to improvements in student achievement**

- One of the issues that faces Oroville High School and the Oroville Union High School District is declining enrollment, which has caused a financial strain on the school budgets. It is projected that by 2018/19, our district enrollment will decline by approximately 4%. The net results of this decline continues to be the loss of course offerings that would enhance the educational opportunities for students. The table below illustrates the estimated decline in student enrollment.

School Year	Projected Enrollment	Projected Decline	Percentage Decline
2014 - 2015	2296	63	2.67%
2015 - 2016	2304	+ 8	(-0.35%)
2016 - 2017	2238	65	2.82%
2017-2018	2267	+ 29	(1.30%)
2018 - 2019	2267	0	0.00%
Total Projected Decline		91	3.96%

- OHS parent involvement has declined. Although we see parent participation in sporting and classroom activities as well as utilizing online resources, we see very little participation with groups such as ELAC, Title I and LCAP meetings where decisions are made.
- Oroville is not an affluent community as reflected by the median household income of \$41,181 and by the large and growing number of students who qualify for free or reduced lunches. Certainly the increase of economically disadvantaged students has very real financial hardships associated with it.
- For chronic truants, the SARB (School Attendance Review Board) process lacked any real and/or timely consequences. With the switch to a Student Academic and Attendance Review Team (SAART) there has been some improvement.
- Meeting class size goals. Currently the district goal is to maintain a 36:1 class size. Before the fiscal crisis, which began in 2004, the district supported class size reduction in 9<sup>th</sup> and 10<sup>th</sup> grade English, and introductory math classes.
- A clear plan for intervention for struggling students is in the beginning stage of development.

**Support of the current program to enable under-performing students to meet standards**

- |                           |                             |                                  |

Met Target	-	-	-	Y	Y	N	Y	Y	Y	-	-	-

A data review was conducted by the School Site Council, the School Advisory Committee, Subject Area Coordinators, and the school site staff. Analysis of the data from the CST scores available indicated a lack of consistency in our academic progress. Our school showed some years of steady growth but not in all areas. In spite of the fact that Oroville High School saw an increase in its school-wide Academic Performance Index, we find ourselves in the fifth year of Program Improvement.

Because of the lack of standardized data, we have looked at GPA data as a means of measuring student growth. The data below indicates academic progress as a school at all grade levels.

1st Semester Grade 9			
	2013-14	2014-15	2015-16
A	23%	33%	34%

F	7%	1%	2%

## SCHOOL GOALS

### GOAL #1: IMPROVE PERFORMANCE LEVELS OF ALL STUDENTS IN EVERY CORE SUBJECT

**Issue Statement:**

The most recent data indicated over the last several years, Oroville High has faced a lack of steady growth on API, which indicates inconsistency in student performance. Our focus at Oroville must be sustained progress for all students year after year. The measures that are in place for all schools in California, such as the SBAC (when available) and the California High School Exit Examination (CAHSEE), provide districts with base-line information on how well students understand the State Content Standards that are taught in all core subjects.

**Table- 9 Academic Performance Index 2006 - 2013**

	2006 - 07	2007 - 08	2008 - 09	2009 - 10	2010 - 11	2011 - 12	2012 - 13	Total Growth
White	717	701	727	714	720	726	752	35
Asian	739	748	749	753	751	788	807	61
Low Socio	693	693	702	672	692	726	748	55
English Learners	694	717	729	707	720	746	751	57
<b>All Students</b>	<b>710</b>	<b>703</b>	<b>727</b>	<b>707</b>	<b>718</b>	<b>746</b>	<b>760</b>	<b>50</b>

**Graph- 1 Academic Performance Index 2006 - 2013**

(Goal #1 – continued)

**Table- 10 Graduation Rate**

<b>Graduation Rate</b>					
Year	Cohort Students	Cohort Graduates	Cohort Graduation Rates	Cohort Dropouts	Cohort Dropout Rates
2012	250	240	96	*	3.2
2013	247	233	94.3	*	4
2014	246	235	96	*	*
2015	195	188	96.4	*	2.1

**Objective:**

Students will perform at or above the proficient level or its equivalent, or gain one level of achievement each year on the SBAC. The non-passing rate of students will decline per grade each year. The number of students meeting all graduation requirements, including passing the CAHSEE, will increase over time as well as those meeting college /career readiness standards.

**Means of Evaluating Progress Toward this Goal:**

Progress will be evaluated by departmental collaborative teams and the leadership team through on-going and timely analysis of perceptual and achievement data.

**Group Data To Be Collected To Measure Academic Gains:**

Grade distributions, SBAC Performance band distributions, benchmark performance bands, common assessments, CAHSEE outcome data, and graduation/dropout rate data will continue to be collected. If possible, data will be disaggregated by population and ethnicity subgroups.

Strategy	Measure	Time Line	Funding Source
<b>Professional Development</b> <ul style="list-style-type: none"> <li>• Use of Technology</li> <li>• On-site workshops</li> <li>• ELD</li> <li>• Common Core Training</li> <li>• Assessment Training</li> <li>• Competency training in assessment tools</li> <li>• Department collaboration days</li> <li>• Conferences ( PLC and content area)</li> <li>• Reading and writing across the curriculum</li> </ul>	Observations Sign-in sheets WASC Reports CELDT Scores SBAC Scores CAHSEE Pass Rates Graduation rates	Annually	Title I Title II General fund LCAP
<b>Embed systematic collaborative process in grade and/or course alike teams to research and implement best practices in instruction</b>	Submit articles of research and curriculum created by sharing best practices online	On-going	Title I General Fund LCAP
<b>Departments will develop learning targets and common assessments aligned with essential standards in subject area teams.</b>	Submit formative and summative assessments within site computer network	On-going	Title I General Fund LCAP
<b>Increase teacher and administrator knowledge about best practices in instruction.</b>	Sharing of best practices at site meetings	On-going	Title I General Fund LCAP

**This goal meets the following WASC Goals:**

Goal 1 (Area of Improvement): Continue to improve academic achievement in all subject areas.

Goal 2 (Area of improvement): Continue to develop and organize programs and interventions to assure the physical, social, emotional and academic success for all students.

Goal 3 (Area of improvement): Address a clear and concise plan for acquisition, placement, maintenance, training and use of technology.

**GOAL #2: UTILIZE FORMATIVE AND SUMMATIVE ASSESSMENT DATA TO ACCURATELY GAUGE LEVELS OF STUDENT LEARNING**

**Issue Statement:**

According to the PLC model, in order to track the proficiency levels of students, teachers in grade and/or course-alike teams create formative assessments to intervene when students do not understand content, then create summative assessments to evaluate whether all students have met the standards.

**Objective:**

Subgroups currently performing at or below the proficient level will improve one performance band.

**Means of Evaluating Progress Toward this Goal:**

Teacher observation of test reliability by disaggregating formative and summative assessment results.

**Group Data To Be Collected To Measure Academic Gains:**

Grade distributions, SBAC Performance, benchmark performance bands, and CAHSEE outcome data will continue to be collected. When possible, data will be disaggregated by population and ethnicity subgroups.

Strategy	Measure	Time Line	Funding Source
Departments will continue to develop and utilize common assessments.	Common Assessments uploaded to school network. Samples collected and shared	On-going	Title I LCAP
Teacher-driven collaborative time will be dedicated to disaggregate and analyze assessment data.	Department chair report findings at SAC Meetings. PLC Guiding Coalition members monitor.	Monthly	Title I LCAP
Provide professional development in data analysis strategies utilizing AERIES Analytics or similar program.	Reports to Site Council	On-going	Title I LCAP

**This goal meets the following WASC Goals:**

**Area 1:** Curriculum, instruction, and assessment will be aligned to the California State Content and Performance Standards.

Goal 1 (Area of Improvement): Continue to improve academic achievement in all subject areas.

Goal 2 (Area of improvement): Continue to develop and organize programs and interventions to assure the physical, social, emotional and academic success for all students.

**GOAL #3: CREATE AND IMPLEMENT A SCHOOL-WIDE, TIMELY, AND TARGETED SYSTEM OF INTERVENTIONS**

**Issue Statement:**

Oroville High School is committed to offering quality, targeted systems of interventions to meet the needs of students who are not achieving performance standards, and who may be in danger of failing individual courses, and/or not graduating. As a result of PLC training, staff has been in the process of developing common assessments and analyzing results with the goal of having a clear, concise system of measurement and intervention.

**Objective:**

Continue Funding an Intervention Coordinator to help coordinate/monitor interventions. Increased GPA, lowered dropout rate, increase attendance and reduce tardies, lowered attrition rate, increased SBAC performance.

**Means of Evaluating Progress Toward this Goal:**

Analysis of data collected regarding GPAs, benchmark proficiencies, dropout rates, attrition rates, attendance rates and SBAC performance.

(Goal #3 – continued)

**Group Data To Be Collected To Measure Academic Gains:**

SBAC performance band distributions, focusing on underperforming subgroups (English Learners EL, Foster, Student with Disabilities, low Socio-Economic Status, grade distribution data disaggregated by subgroup, dropout rate, graduation rate, class attrition rate.

Strategy	Measure	Time Line	Funding Source

**This goal meets the following WASC Critical Areas of Follow-up:**

**Area 1:** Curriculum, instruction, and assessment will be aligned to the California State Content and Performance Standards.

**Area 3:** Comprehensive staff development plan will be developed to challenge all students to achieve their highest potential.

**Area 5:** Data needs to be analyzed and interpreted to make decisions regarding curriculum, teaching practices, staff development, and program effectiveness.

**Area 6:** Formal intervention will be applied to students who do not pass the CAHSEE and/or who enter OHS with skills below grade level.

**Area 7:** OHS will increase parent involvement. Immediate effort is needed to insure that EL parents have access to vital information, and that all reports and resources are readily available in the appropriate languages.

**GOAL 4: CREATE AND IMPLEMENT A SCHOOL-WIDE SYSTEM OF SUPPORT AND ENRICHMENT OPPORTUNITIES TO DEVELOP SCHOOL CULTURE TO REINFORCE ACADEMICS**

**Issue Statement:**

Oroville High School bases its foundations of school culture on the premise of safety, responsibility and respect among all stakeholders. Oroville continues to work towards meeting its diverse challenges and providing enrichment opportunities for our students. We have developed clubs, programs and activities to make OHS a positive educational environment and to support academic achievement.

**Objective:**

Students will participate in enrichment activities to make them feel more comfortable at school—to feel part of the OHS family—and to increase academic performance. We believe that enrichments can inspire students and help them succeed as life-long learners. The focus of this goal is to work collaboratively with parents, student, staff, administration, and the community we serve to create a safe, caring and effective learning environment.

**Means of Evaluating Progress Toward this Goal:**

Analysis of student involvement in enrichment or support programs, increased attendance rates, a decline in discipline issues, and an increase in student grades and test scores.

**Group Data To Be Collected To Measure Academic Gains:**

Grade distributions, SBAC Performance band distributions, benchmark performance bands, common assessments, CAHSEE outcome data, and graduation/dropout rate data will continue to be collected. Participation in enrichment programs will be collected.

<b>Strategy</b>	<b>Measure</b>	<b>Time Line</b>	<b>Funding Source</b>
<b>COST Meetings</b>	Attendance sheets	Weekly	Title 1 LCAP
<b>Safe School Ambassadors</b>	# of students GPA of students participating, increased attendance and on-time record, pre-and post-surveys of student self-evaluations	Monthly	Title 1, LCAP

1	Jan Bales	Parent	2014-2015	2015-2016
2	Sonya Smith	Parent		2015-2016
3	Kevin Stevens	Parent		2015-2016
4	Ja Pao Xiong	Parent	2014-2015	2015-2016
5	Jadzyah Price	Student		2015-2016
6	Mona Higgins	Student		2015-2016
7	Alyssa Gramps	Student		2015-2016
8				

**2015--2016 ELAC Representation:** Ja Pao Xiong  
**Title I Representative:** Cristi Tellechea  
**SAC Representative:** Bob Schmautz

The council shall be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel; and (b) equal number of parents and students.  
 Size – Not less than 12, no more than 16 voting members.

## ASSURANCES

The School Site Council recommends this school plan and its related expenditures to the District Governing Board for approval, and assures the board of the following:

1. The School Site Council is correctly constituted, and was formed in accordance with District Governing Board policy and state law.
2. The School Site Council reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the school plan requiring board approval.
3. The School Site Council reviewed the content requirements for school plans of programs included in this Single Plan for Student Achievement, and believes all such content requirements have been met, including those found in District Governing Board policies and in the Local Improvement Plan.
4. This school plan is based upon a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.
5. The School Site Council sought and considered all recommendations from the following groups or committees before adopting this plan: **SAC; WASC Committee; Department Chairs; ELAC; ASB**

This School Plan was adopted by the Site Council on:	5/17/2016
Public Notice Due Date	5/18/2016
Attested by Doug Williams (Oroville High Principal)	5/28/2016
Attested by School Site Council Chairperson	5/28/2016
District Governing Board Review Date	6/13/2016
